

# Wood insert, double sided insert and water

<http://www.cheminee-andorre.com/en/Insert-wood-insert-and-water.html>

## Insert

Insert or wood fireplace inserts are designed to improve the heating and enjoy better performance, more power and especially a low wood consumption to real savings for heating.

There are different kinds of inserts: the insert to be placed in the home of an existing fireplace and improving performance, inserts one or both sides and insert in water called "boiler" to replace a boiler insert to operate a central heating.

We design insert water to replace a gas boiler or gas oil to heat all the radiators in the house making huge savings on energy bills.

Insert equipped with cast iron fireplace or refractory bricks allow using embedded turbine heat an entire house cheap.

Corner insert. Insert windows, Insert price without tax

### **Company E.D.C**

Carretera de la rabassa edifici superlauredia 3 local 1

AD600 St Julia de Loria - **Andorra**

**The commercial register: 922247X - Registrar of Companies 12829**
